Safety Data Sheet

Storage conditions

: Keep container closed when not in use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Incompatible products Prohibitions on mixed storage Storage area : acids. Strong oxidizers.

: KEEP SUBSTANCE AWAY FROM: (strong) acids.

: Meet the legal requirements. Store in a cool area. Store in a dry area.

# SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

No additional information available

#### 8.2. Exposure controls

Personal protective equipment

: Safety glasses. Protective clothing. Gloves. Use appropriate personal protective equipment when risk assessment indicates this is necessary.

# **SECTION 9: Physical and chemical properties**

| 9.1. Information on basic physical and che  | mical properties      |
|---------------------------------------------|-----------------------|
| Physical state                              | : Liquid              |
| Appearance                                  | : clear. Gold. brown. |
| Odor                                        | : slight              |
| Odor threshold                              | : No data available   |
| pH                                          | : 9-11                |
| Melting point                               | : No data available   |
| Freezing point                              | : No data available   |
| Boiling point                               | : No data available   |
| Flash point                                 | : > 200 °F Closed Cup |
| Relative evaporation rate (butyl acetate=1) | : No data available   |
| Flammability (solid, gas)                   | : No data available   |
| Explosion limits                            | : No data available   |
| Explosive properties                        | : No data available   |
| Oxidizing properties                        | : No data available   |
| Vapor pressure                              | : No data available   |
| Relative density                            | : No data available   |
| Relative vapor density at 20 °C             | : No data available   |
| Specific gravity / density                  | : 1.05 g/ml           |
| Solubility                                  | : Soluble in water.   |
| Log Pow                                     | : No data available   |
| Log Kow                                     | : No data available   |
| Auto-ignition temperature                   | : No data available   |
| Decomposition temperature                   | : No data available   |
| Viscosity                                   | : No data available   |
| Viscosity, kinematic                        | : No data available   |
| Viscosity, dynamic                          | : No data available   |
| VOC content                                 | : <6%                 |
|                                             |                       |

# **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

Thermal decomposition may produce oxides of carbon and nitrogen.

**10.2.** Chemical stability Stable under normal conditions.

Safety Data Sheet

#### 10.3. Possibility of hazardous reactions

Refer to section 10.1 on Reactivity.

#### 10.4. Conditions to avoid

No additional information available

## 10.5. Incompatible materials

acids. Oxidizing agent.

Acute toxicity

#### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

#### **SECTION 11: Toxicological information**

#### 11.1. Information on toxicological effects

#### : Not classified

| 2-aminoethanol, ethanolamine (141-43-5)            |                                                  |

| Symptoms/injuries after skin contact               | : Causes skin irritation.                        |
| Symptoms/injuries after eye contact                | : Causes serious eye irritation.                 |
| Symptoms/injuries after ingestion                  | : Gastrointestinal complaints. Nausea. Vomiting. |

## **SECTION 12: Ecological information**

| 12.1. Toxicity                      |  |
|-------------------------------------|--|
| No additional information available |  |
|                                     |  |
| 12.2. Persistence and degradability |  |
| No additional information available |  |
|                                     |  |
| 12.3. Bioaccumulative potential     |  |
| No additional information available |  |
|                                     |  |
|                                     |  |

## **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Waste disposal recommendations

: Dispose in a safe manner in accordance with local/national regulations.

## **SECTION 14: Transport information**

#### Department of Transportation (DOT)

# Safety Data Sheet

In accordance with DOT Not regulated for transport Additional information

Other information

: No supplementary information available.

# ADR No additional information available Transport by sea No additional information available Air transport No additional information available

## SECTION 15: Regulatory information

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

Chemical(s) subject to the reporting requirements of Section 313 or Title III of the Superfund Amendments and Reauthorization Act (SARA) of 1986 and 40 CFR Part 372.

| 2,2'-iminodiethanol, diethanolamine | CAS No 111-42-2 | 1-5 |
|-------------------------------------|-----------------|-----|
|                                     |                 |     |

California Proposition 65 - This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

# **SECTION 16: Other information**

Training advice

: Normal use of this product shall imply use in accordance with the instructions on the packaging.
