INGESTION: Rinse mouth. Do not induce vomiting. Seek medical attention immediately.

Section 5 Fire Fighting Measures

Suitable fire extinguishing media:

Use large amounts of water, fog or foam.

Specific hazards arising from the chemical:

Reacts with water to generate heat and fumes. Using large amounts of water will suppress the reaction.

Hazardous thermal decomposition products:

Carbon Dioxide, Carbon Monoxide, Ammonia

Specific fire-fighting methods:

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire fighters:

Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.
